TEBPLASTIC is devoted to plastic

Company Introduction

Teb plastic industrial company is the manufacturer and the exporter of medicinal and nutritive disposable containers which has started its activity since 1998, following the goal of providing domestic needs and entering the competitive markets in the region. Manufacturing the best products using the latest technology in the world, in addition to the high quality raw materials has caused Teb Plastic company many success in the domestic and regional arena.

The management system of Teb Plastic company has paid a special attention to its research and development unit beside its active presence in professional unions and associations including Iran National Plastic Association, Association of Plastic Industries and taking part in domestic as well as international exhibitions. It has to be mentioned that Teb Plastic industrial group has launched its third production unit since 2011 in Semnan province in Iran with approximately 100 production lines. The company has been able to offer disposable containers with the best quality, a wide variety and a high volume of production in exporting polymeric disposable containers which has caused neighboring countries to recognize Iran as an outstanding one in its profession.

Another honor Teb Plastic is proud of is respecting the consumer's rights and promoting the service and production's quality. In order to reach this goal, the company has received various ISO certificates , such as 2008:9001-14001:2004-18001:2007-22000:205. In 2012, the company received the certificate of respecting consumer's rights. Also, in the same year the company could launch its research and development unit which has transferred it to a science-based one. Since then, the company has had many improvements applying the latest technology in the world.
